

High School/Career & Technical Education Council 2017-2018

Welcome to the High School/Career & Technical Education Council webpage.

NAEOP President, Lisa Morehouse, CEOE, has chosen as her theme, “*Accept the Challenge – Become the Difference.*” As educational office professionals in a high school or career & technical school, I challenge you to step up and become the difference this year in either your local, state or national organization.

I encourage each of you to reach out to your colleagues and introduce them to NAEOP and the benefits you enjoy with NAEOP, so they can do the same.

NAEOP consists of six councils:

- Elementary
- Middle School / Junior High
- High School / Career & Technical Education
- Higher Education
- Administrative
- Education Partners

By joining NAEOP you are a council member. Give voice; tell us what we are doing right as well as things we can improve. Write an article to be shared, and share your experience and knowledge with others.

Let's make this year even better, now is the time for you to *Accept the Challenge – Become the Difference.*

Please contact me if you have questions about NAEOP, the High School/Career & Technical Council or about becoming a NAEOP member.

Mary Beth Smith
High School/Career & Technical Education Council Chairman
